## New Single-Shot Precision-Rifled Pistols

Model 232 for .22 caliber (5.5mm)  
pellets & darts

Model 237 for .177 caliber (4.5mm)  
pellets & darts

Here are air pistols renowned for their accuracy, lightweight balance, recoilless firing and adjustable velocities, dependent on the number of pump strokes — now made even better in two new models for .177 and .22 calibers.

Improvements include a higher-ramp front sight, greater velocities, improved breech seating and tougher interior parts.

Specifications	Model 232	Model 237
Caliber:	.22 (5.5mm)	.177 (4.5mm)
Length—Overall:	11¾" (289.5mm)	
—Barrel:	8½" (216mm)

Rifling:	Right hand, 6 grooves 1 turn in 14"	
Velocity, Approx. Max.	315 fps (96 mps)	418 fps (127 mps)
Front Sight:	High-ramp blade	
Rear Sight:	V-type, adjustable for elevation & windage	
Grips:	Standard: Checkered Plastic Optional: American Walnut	

### Smooth-Bore Pistol for BB's — Plus .177 pellets & darts!

It's a classic. First introduced in 1942, millions have been sold and the great majority still are in use, passing from father to son, to grandson. There have been continual minor improvements over the years, of course, so the Model 130 you buy today has all the traditional Benjamin quality — brass and stainless steel components, superb accuracy and virtually endless life with minimum maintenance.

Specifications	Model 130
Caliber:	BB [and .177 caliber (4.5mm)]
Length—Overall:	11" (279 mm)
—Barrel:	8" (203 mm)
